Notes to Unaudited Consolidated Financial Statements

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of REGI U.S., Inc. ("REGI") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto for the year ended April 30, 2013 filed on Form 10-K with the SEC. In the opinion of management, the accompanying unaudited interim consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, necessary to present fairly the financial position and the results of operations for the interim period presented herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year or for any future period. Notes to the unaudited consolidated financial statements which would substantially duplicate the disclosures contained in the audited consolidated financial statements for fiscal 2013 as reported in Form 10-K, have been omitted.

Reclassifications

Certain comparative figures have been reclassified to conform to the current year's presentation.

NOTE 2. GOING CONCERN

REGI incurred net losses of \$200,847 for the three months ended July 31, 2013, has a working capital deficit of \$1,716,781 and an accumulated deficit of \$11,929,418 at July 31, 2013. These factors raise substantial doubt about the ability of REGI to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. As a result, REGI's consolidated financial statements as of July 31, 2013 and for the three months ended July 31, 2013 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business.

REGI also receives interim support from affiliated companies and plans to raise additional capital through debt and/or equity financings. There continues to be insufficient funds to provide enough working capital to fund ongoing operations for the next twelve months. REGI may also raise additional funds through the exercise of warrants and stock options, if exercised. There is no assurance that any of these activities will be successful.

NOTE 3. RELATED PARTIES

Amounts due to and from related parties are unsecured, non-interest bearing and due on demand except for the \$24,000 promissory note described below. Related parties consist of companies controlled or significantly influenced by the President of REGI. As of April 30, 2013, there was no balance due from related parties and \$1,499,300 due to related parties.

During the year ended April 30, 2012 the Company issued a promissory note of \$24,000 for amounts previously accrued and owed to a company with common director with the Company. The promissory note bears interest rate of 6% per annum, is unsecured and due on demand. During the three months ended July 31, 2013, interest expense of \$360 was recorded on the promissory note. The principal balance of the note is included as due to related parties in the consolidated balance sheet.

During the three month period ended July 31, 2013, the President, CEO and director of REGI provided consulting services to REGI valued at \$22,500, which were accounted for as donated capital and charged to expense during the period. The same amount was recorded in the three month period ended July 31, 2012.

During the three month period ended July 31, 2013, the CFO, COO and director of REGI provided consulting services to REGI valued at \$7,500, which were accounted for as donated capital and charged to expense during the period. The same amount was recorded in the three month period ended July 31, 2012.

During each of three month periods ended July 31, 2013 and 2012, management fees of \$7,500 were accrued to a company having a common director.

NOTE 4. STOCKHOLDERS' EQUITY

a) Common Stock Options and Warrants

During the three month periods ended July 31, 2013 and 2012, the Company recorded aggregate stock-based compensation associated with options and warrants of \$136,321 and \$132,299, respectively. At July 31, 2013 and April 30, 2013, the Company had \$401,072 of total unrecognized compensation cost related to non-vested stock options and warrants, which will be recognized over future periods.

The fair value of each option and warrant grant or modification during the three months ended July 31, 2013 and 2012 was determined using the Black-Scholes option pricing model and the following assumptions:

	Three Months Ended July 31,	
	2013	2012
Risk free interest rate	0.11% - 0.15%	0.15 - 0.74%
Expected life	0.09-1.64	0.01 - 5 years
Annualized volatility	191.11% - 299.98%	204.98% - 377.83%
Expected dividends	-	-

Option pricing models require the input of highly subjective assumptions including the expected price volatility. The subjective input assumptions can materially affect the fair value estimate.

A summary of REGI's stock option activity for the three months ended July 31, 2013 is as follows:

Outstanding at end of period	2,638,000	\$ 0.15
Exercisable at end of period	659,500	\$ 0.15
Weighted average fair value of options granted		\$ 0.17

At July 31, 2013, the range of exercise prices and the weighted average remaining contractual life of the outstanding options was \$0.10 to \$0.20 per share and 4.13 years, respectively. The intrinsic value of "in the money" exercisable options at July 31, 2013 was \$29,397.

At April 30, 2013, the range of exercise prices and the weighted average remaining contractual life of the outstanding options was \$0.10 to \$0.20 per share and 4.83 years, respectively. The intrinsic value of "in the money" exercisable options at April 30, 2013 was \$158,005.

Outstanding at end of period	3,730,150	\$ 0.18
Exercisable at end of period	3,692,650	\$ 0.18

On July 27, 2013, the Company extended the expiration date of 833,950 outstanding common stock warrants with expiration dates between July 30, 2012 and December 17, 2013 by one year and reduced their exercise price from \$0.50 to \$0.25. REGI calculated the incremental increase in the fair value using the Black-Scholes option pricing model and determined it to be \$136,321 which was expensed in three months ended July 31, 2013.

At July 31, 2013, the range of exercise prices and the weighted average remaining contractual life of the outstanding warrants was \$0.10 to \$0.25 per share and 0.75 year, respectively. The intrinsic value of "in the money" exercisable warrants at July 31, 2013 was \$106,707.
